NON-WSQ COURSE · v1.0

AI Transformation with Microsoft Copilot

Microsoft 365 Copilot → Workflows → Agents → measurable business outcomes

Course Code: C776 | 2 days · 15 hours | 1 October 2026

Conducted by Tertiary Infotech Academy Pte Ltd · UEN 201200696W

Informed by Microsoft AB-730 business use and AB-731 transformation leadership · This course is not Microsoft exam preparation

Let us know each other

Your leadership role

One Copilot opportunity

One decision risk

Share your leadership role, one Copilot opportunity and one decision concern.

© 2026 Tertiary Infotech Academy

Ground rules

Synthetic data only

Cite each source

Human approval before action

Use only synthetic lab data; cite sources; retain human approval for external actions.

Lesson plan

Day 1: Microsoft 365 Copilot

Days 1–2: Copilot Workflows

Day 2: agents and scale

Day 1: Microsoft 365 Copilot and Workflow design · Day 2: Workflow controls, agents, adoption and value.

© 2026 Tertiary Infotech Academy

Use Microsoft 365 Copilot for everyday business work

Choose a service outcome → Pilot opportunity statement

Ask a useful question → Reusable work prompt

Ground a chat answer → Sourced response summary

Compare options in Chat → Option comparison

© 2026 Tertiary Infotech Academy

Design safe Copilot Workflows and human controls

Spot a repeatable handoff → Workflow opportunity card

Define trigger and result → Trigger-to-result map

Add review step → Human review gate

Test exceptions → Test and exception log

© 2026 Tertiary Infotech Academy

Create and test bounded Copilot agents

Choose agent purpose → Agent purpose statement

Write instructions → Agent instructions draft

Add knowledge → Knowledge-source register

Create starter prompts → Starter prompt set

© 2026 Tertiary Infotech Academy

Lead adoption, measure value and scale outcomes

Map a work journey → Future-state journey map

Choose a first cohort → Pilot cohort plan

Prepare managers → Manager enablement brief

Collect user feedback → Improvement backlog

© 2026 Tertiary Infotech Academy

Lab 01: Copilot Chat and shared planning

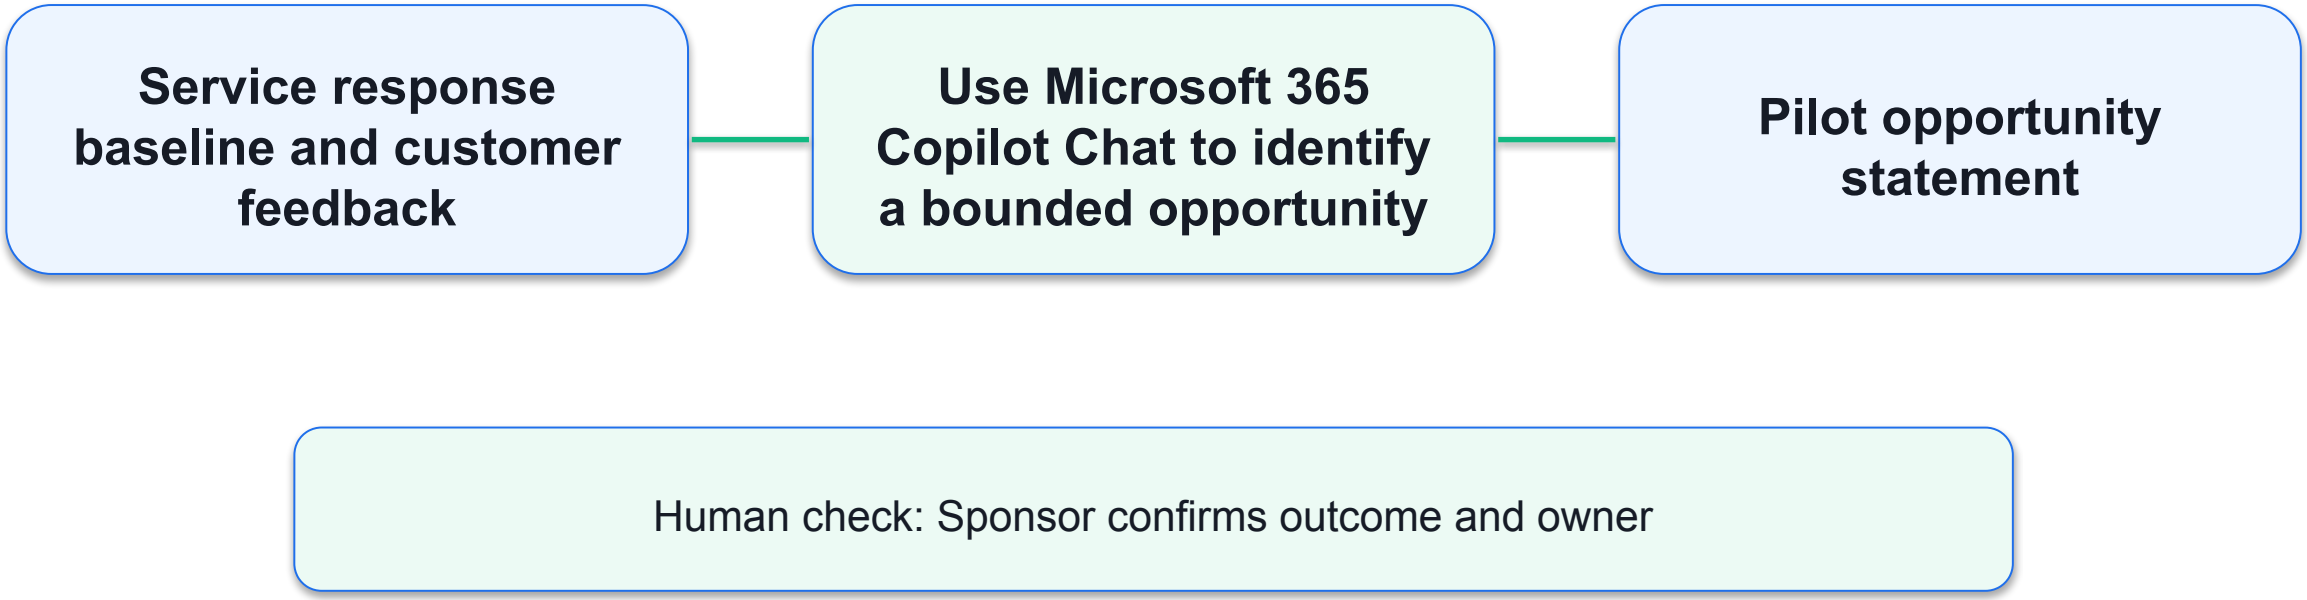

Business outcome: Pilot opportunity statement

Human decision gate: Sponsor confirms outcome and owner

© 2026 Tertiary Infotech Academy

Choose a service outcome: decision model

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Choose a service outcome: worked business artifact

NORTHSTAR SERVICE · SYNTHETIC WORKED EXAMPLE

INPUT RECORD | Service response baseline and customer feedback

OUTPUT RECORD | Pilot opportunity statement

Copilot action | Use Microsoft 365 Copilot Chat to identify a bounded opportunity

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Choose a service outcome: executive review

COPILOT USE | Use Microsoft 365 Copilot Chat to identify a bounded opportunity

HUMAN REVIEW | Sponsor confirms outcome and owner

CHALLENGE | AI use is mistaken for customer benefit

Evidence to retain: source · assumption · owner · decision · outcome

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Choose a service outcome: challenge scenario

Trigger
Service response baseline and customer feedback

Observed failure
AI use is mistaken for customer benefit

Corrective gate
Sponsor confirms outcome and owner

Retest on the same input and verify: Pilot opportunity statement

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Choose a service outcome: outcome measure

MEASURE | Comparable response time

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Choose a service outcome: go or hold gate

Lab 01 evidence: Pilot opportunity statement

PASS | Sponsor confirms outcome and owner

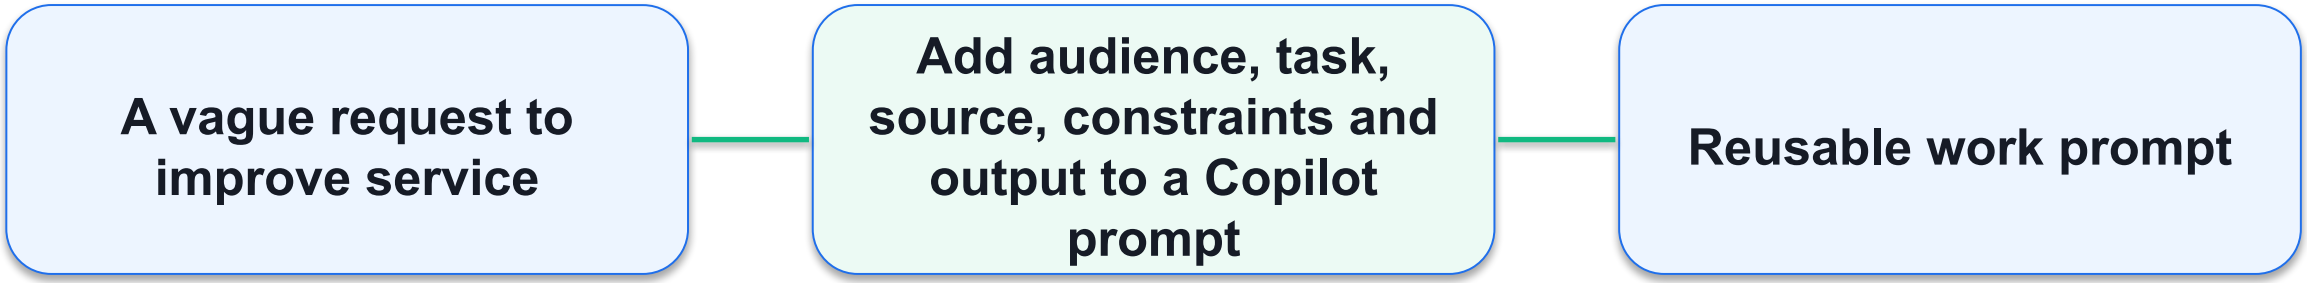

FAIL | AI use is mistaken for customer benefit

Acceptance record: Comparable response time; link source, reviewer and date.

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ask a useful question: decision model

Human check: Manager confirms the prompt answers the real question

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ask a useful question: worked business artifact

NORTHSTAR SERVICE · SYNTHETIC WORKED EXAMPLE

INPUT RECORD | A vague request to improve service

OUTPUT RECORD | Reusable work prompt

Copilot action | Add audience, task, source, constraints and output to a Copilot prompt

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ask a useful question: executive review

COPILOT USE | Add audience, task, source, constraints and output to a Copilot prompt

HUMAN REVIEW | Manager confirms the prompt answers the real question

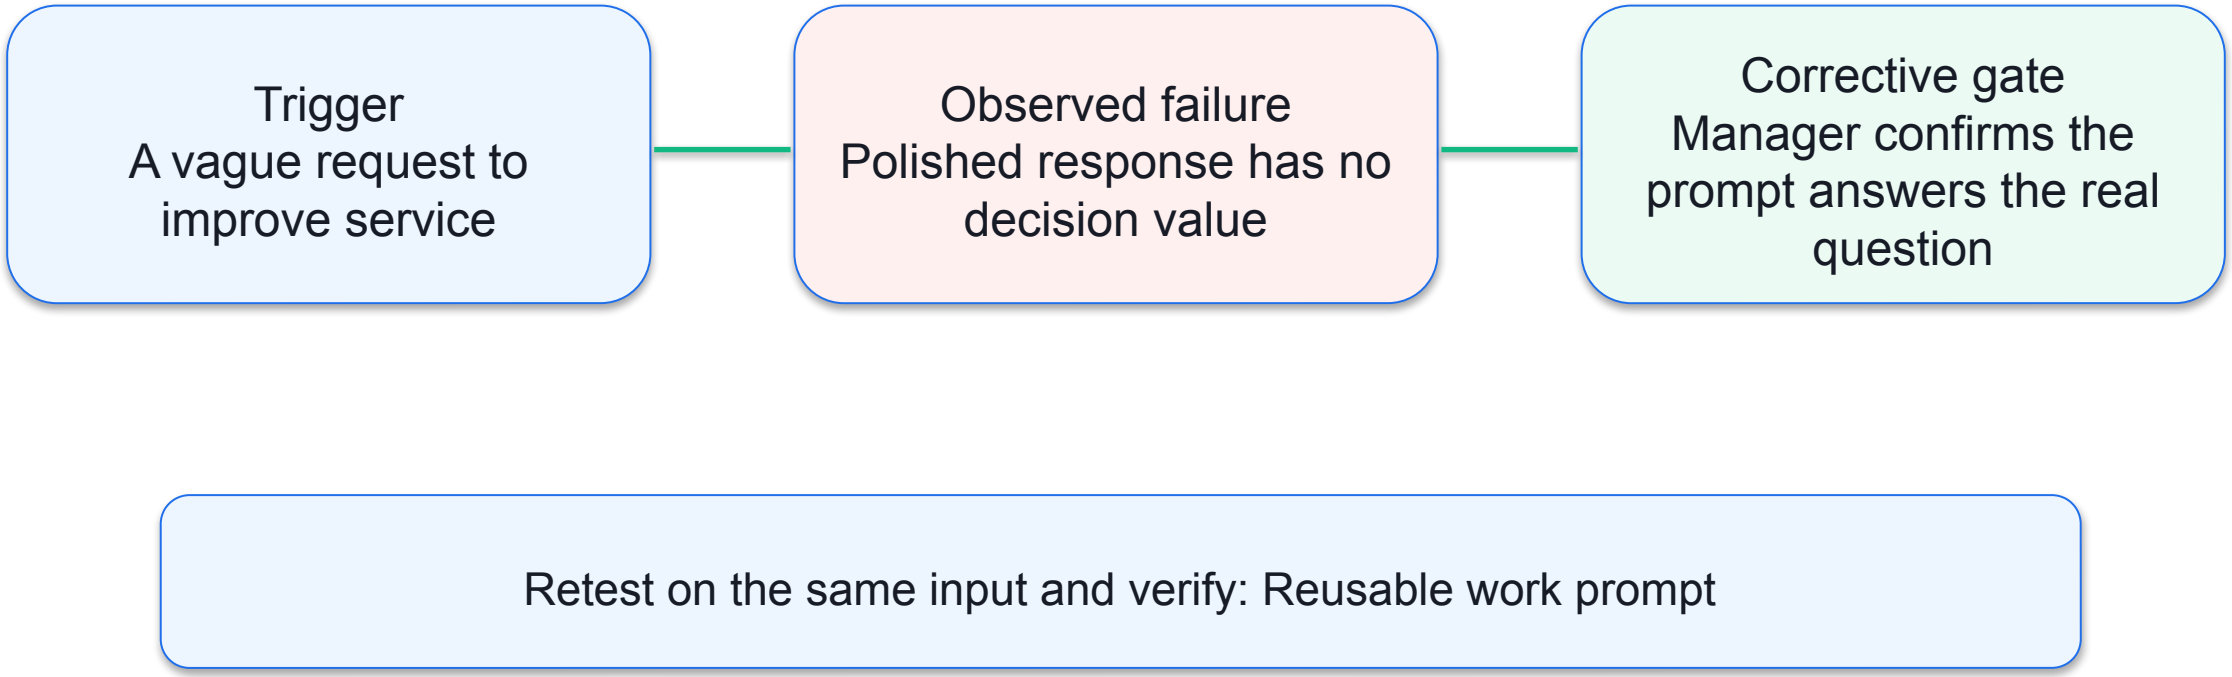

CHALLENGE | Polished response has no decision value

Evidence to retain: source · assumption · owner · decision · outcome

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ask a useful question: challenge scenario

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ask a useful question: outcome measure

MEASURE | Relevant answers per review

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ask a useful question: go or hold gate

Lab 01 evidence: Reusable work prompt

PASS | Manager confirms the prompt answers the real question

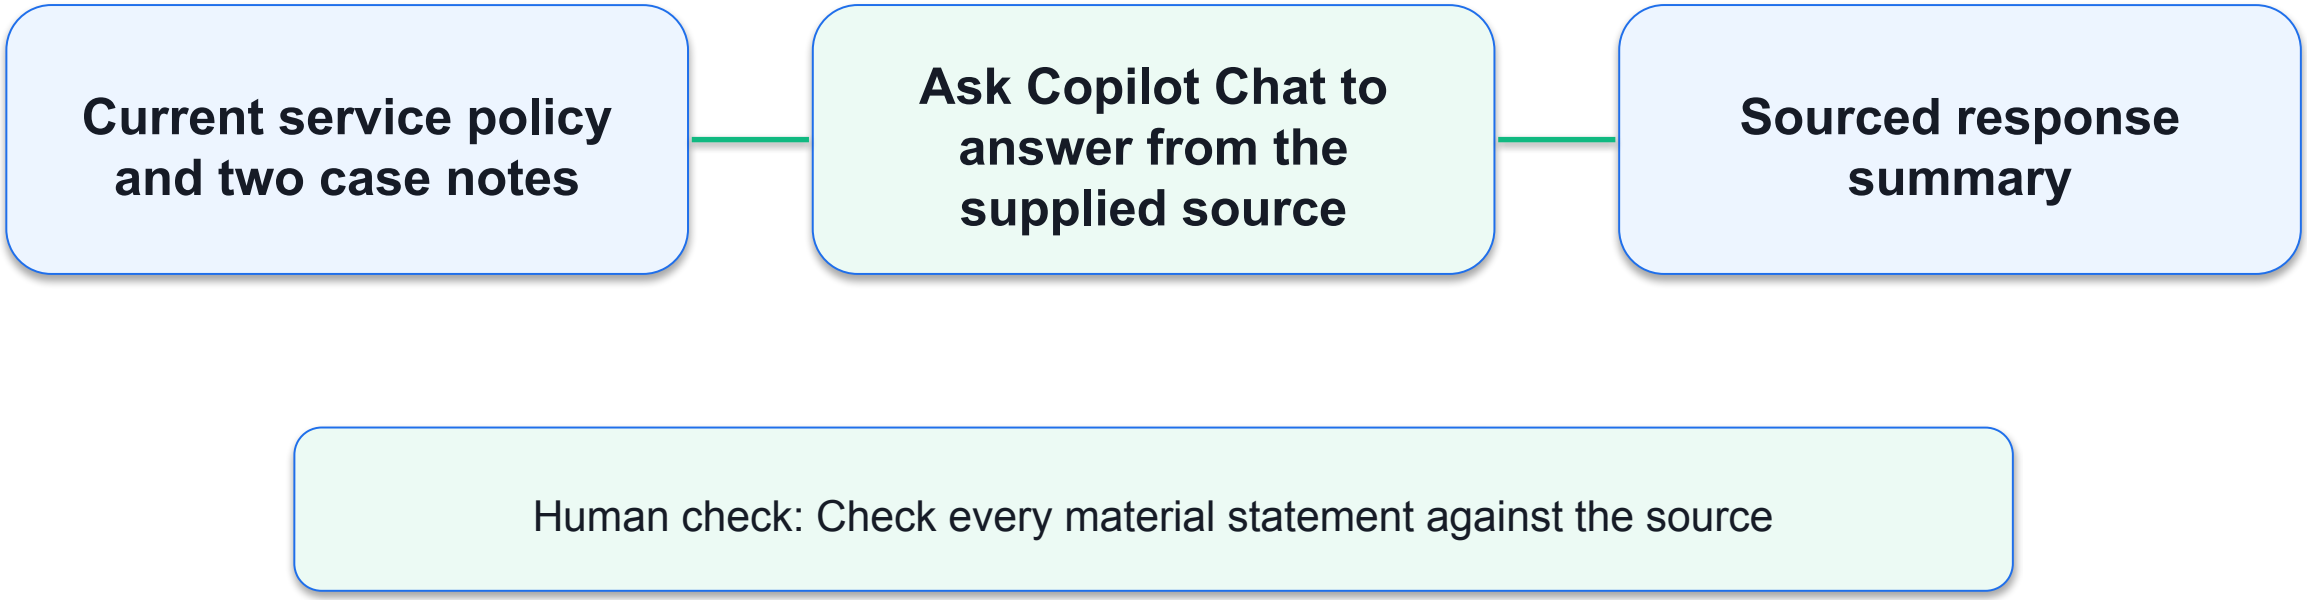

FAIL | Polished response has no decision value

Acceptance record: Relevant answers per review; link source, reviewer and date.

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ground a chat answer: decision model

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ground a chat answer: worked business artifact

NORTHSTAR SERVICE · SYNTHETIC WORKED EXAMPLE

INPUT RECORD | Current service policy and two case notes

OUTPUT RECORD | Sourced response summary

Copilot action | Ask Copilot Chat to answer from the supplied source

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ground a chat answer: executive review

COPILOT USE | Ask Copilot Chat to answer from the supplied source

HUMAN REVIEW | Check every material statement against the source

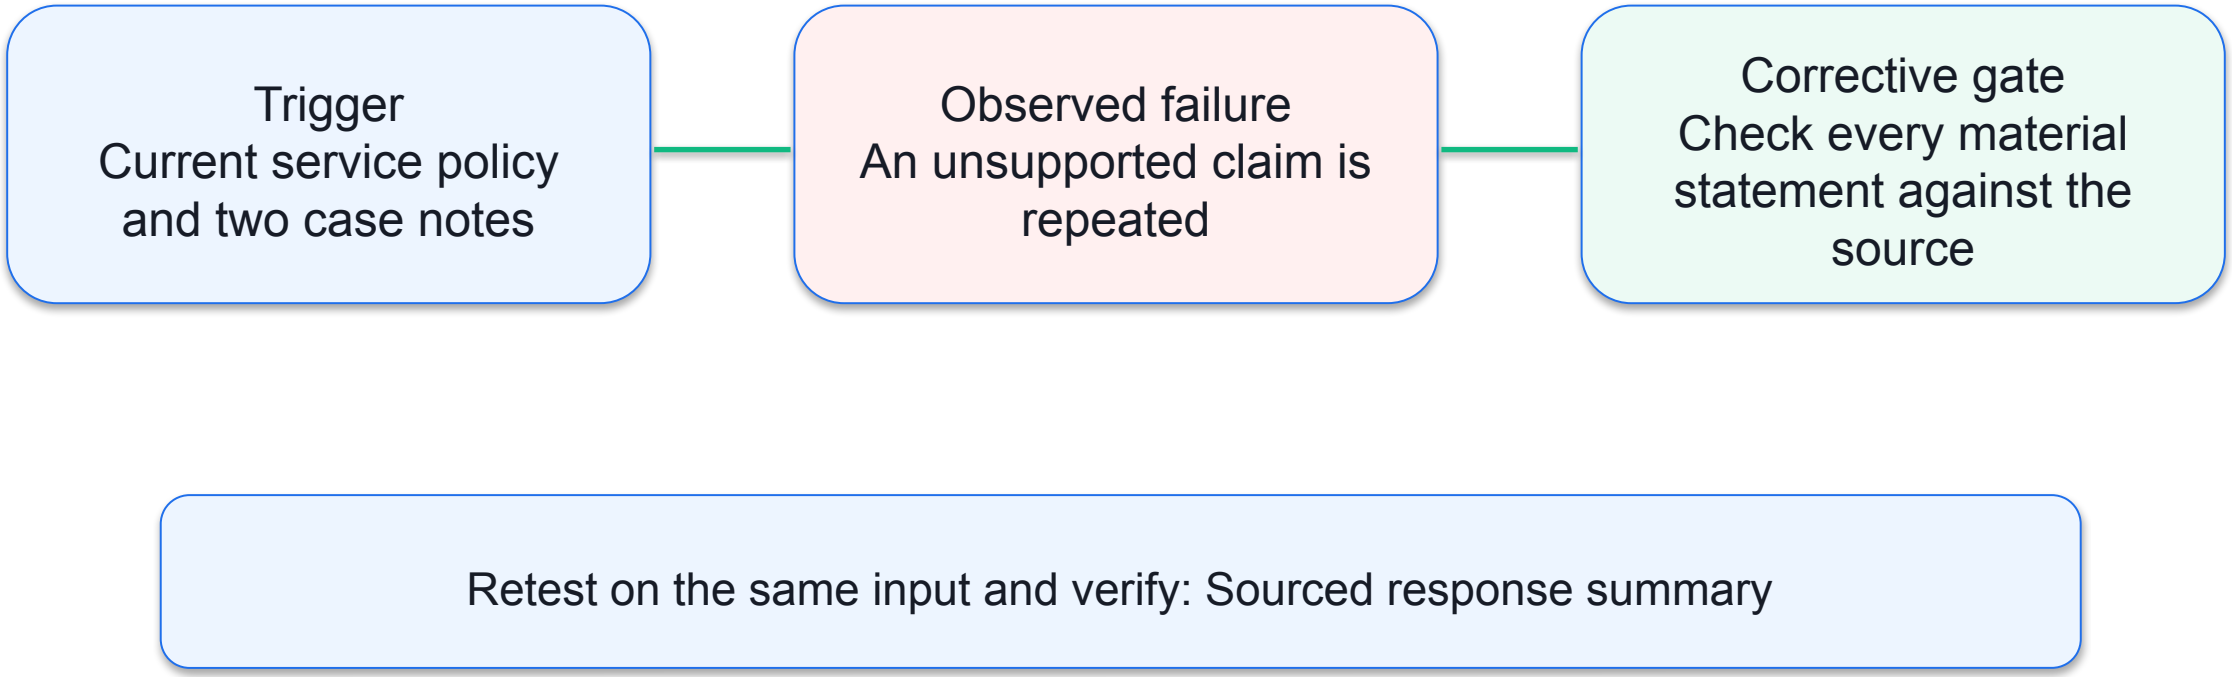

CHALLENGE | An unsupported claim is repeated

Evidence to retain: source · assumption · owner · decision · outcome

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ground a chat answer: challenge scenario

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ground a chat answer: outcome measure

MEASURE | Verified claims per sample

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Ground a chat answer: go or hold gate

Lab 01 evidence: Sourced response summary

PASS | Check every material statement against the source

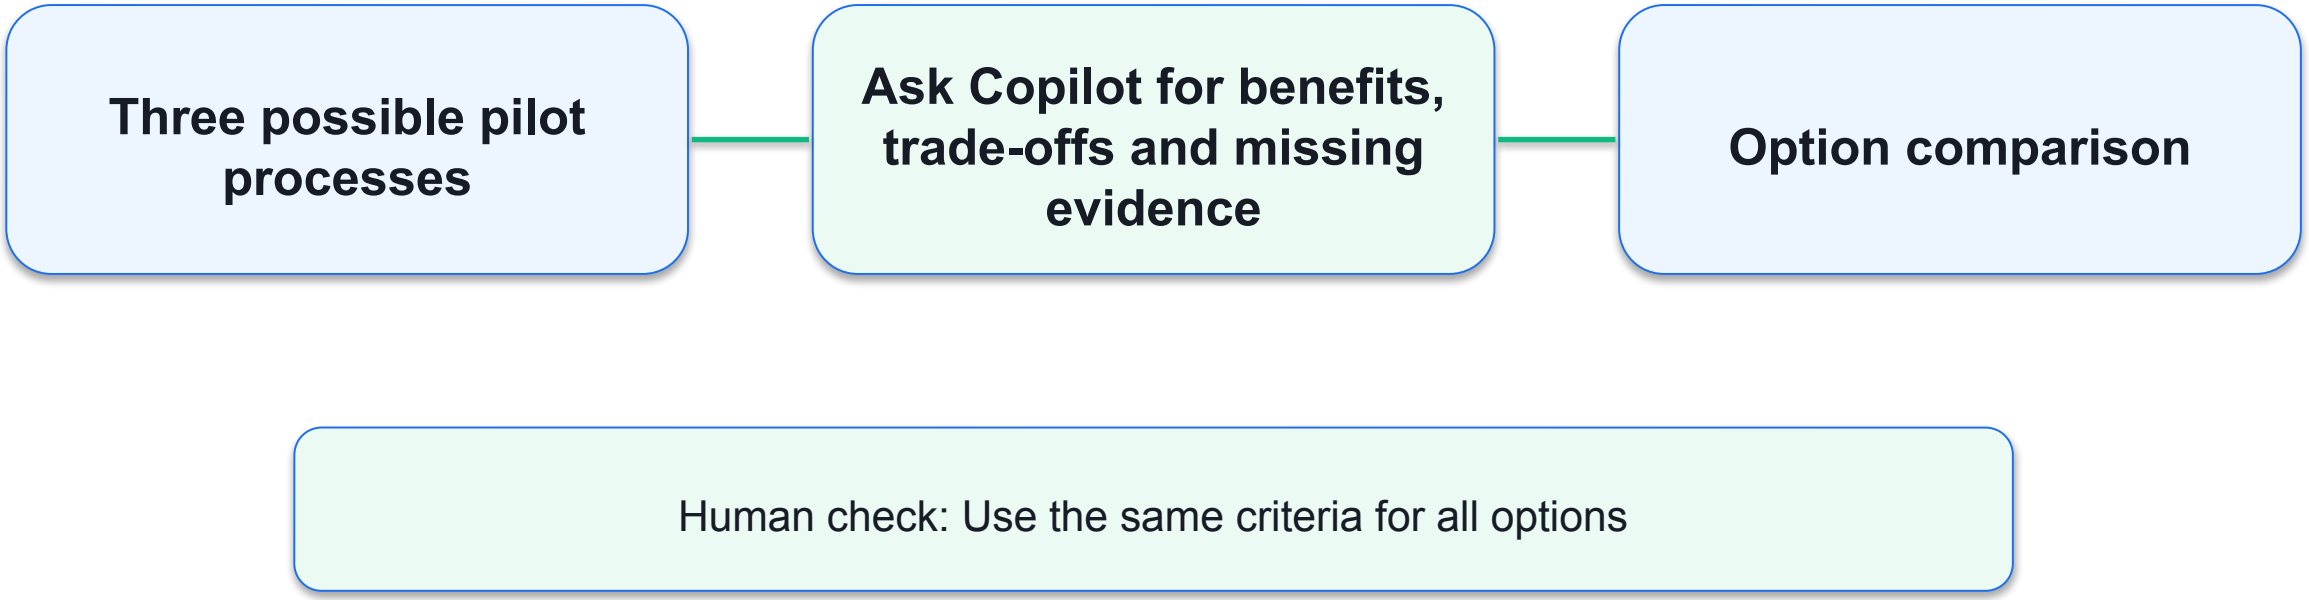

FAIL | An unsupported claim is repeated

Acceptance record: Verified claims per sample; link source, reviewer and date.

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Compare options in Chat: decision model

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Compare options in Chat: worked business artifact

NORTHSTAR SERVICE · SYNTHETIC WORKED EXAMPLE

INPUT RECORD | Three possible pilot processes

OUTPUT RECORD | Option comparison

Copilot action | Ask Copilot for benefits, trade-offs and missing evidence

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Compare options in Chat: executive review

COPILOT USE | Ask Copilot for benefits, trade-offs and missing evidence

HUMAN REVIEW | Use the same criteria for all options

CHALLENGE | The preferred option receives easier criteria

Evidence to retain: source · assumption · owner · decision · outcome

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Compare options in Chat: challenge scenario

Trigger
Three possible pilot processes

Observed failure
The preferred option receives easier criteria

Corrective gate
Use the same criteria for all options

Retest on the same input and verify: Option comparison

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Compare options in Chat: outcome measure

MEASURE | Options with complete evidence

BASELINE
Same task and cohort

PILOT
Record reviewed result

COMPARISON
Apply stated measure

Evidence rule: same denominator, time window and task mix; label assumptions.

Microsoft product/curriculum reference: https://learn.microsoft.com/en-us/credentials/certifications/ai-business-professional/

© 2026 Tertiary Infotech Academy

Compare options in Chat: go or hold gate

Lab 01 evidence: Option comparison

PASS | Use the same criteria for all options

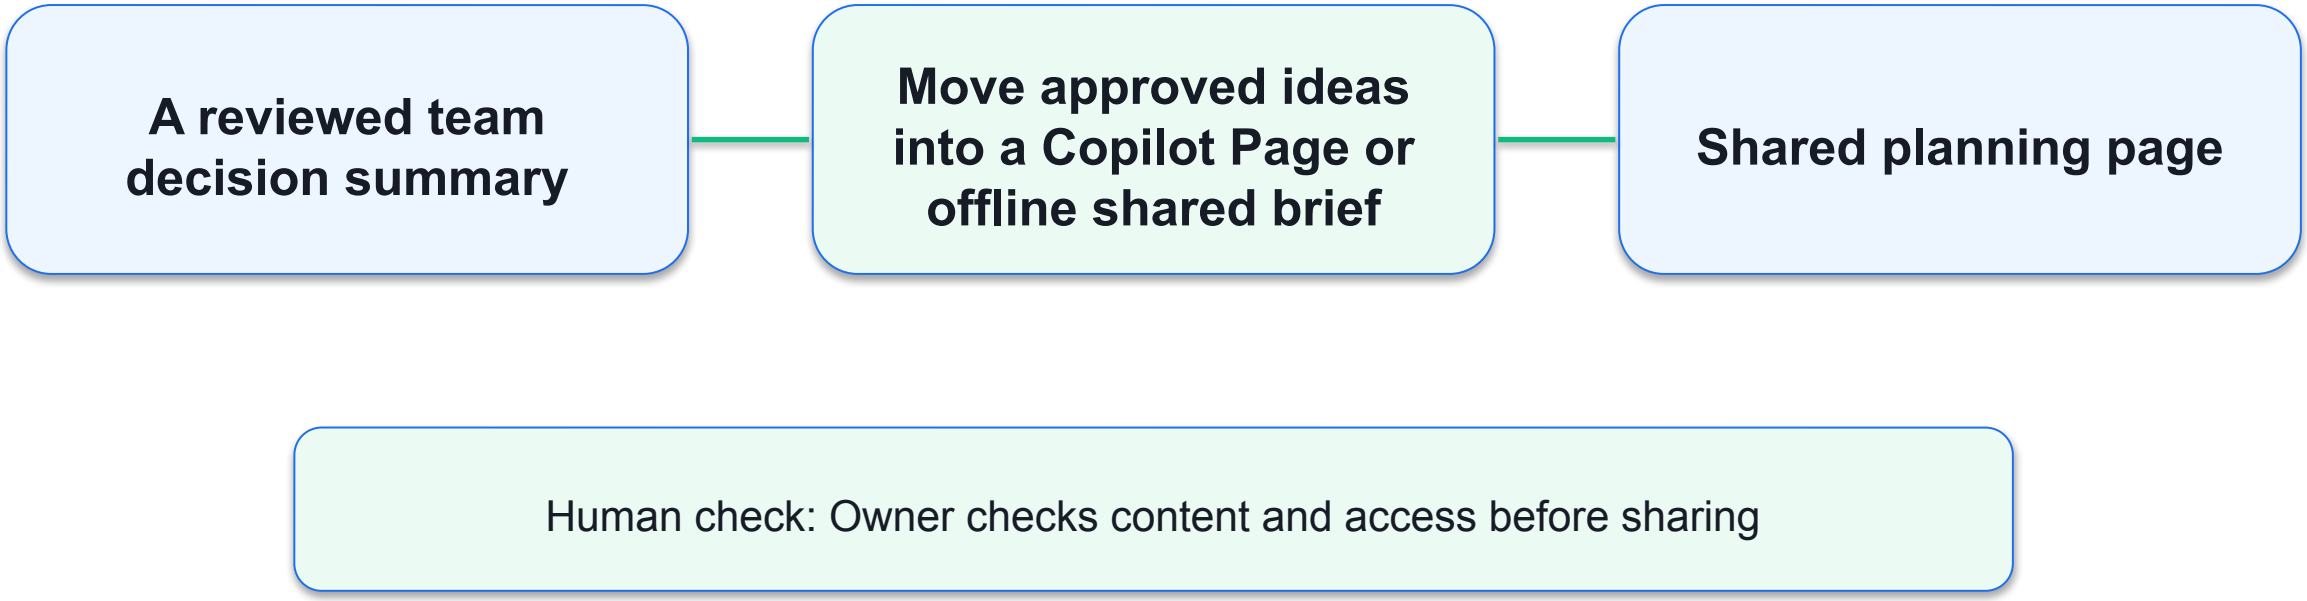

FAIL | The preferred option receives easier criteria

Acceptance record: Options with complete evidence; link source, reviewer and date.
