Copy-ready executive Copilot prompts

C776 · v1.0 · 1 October 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. Workflows may require Frontier access and features vary by tenant. If a feature is unavailable, use these prompts as an offline design and test framework; label the result simulated.

NS-06 — Draft a Word brief

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing approved pilot notes and service baseline. Use only the attached Northstar Service source pack, particularly NS-06. Use Copilot in Word to draft a two-page decision brief. Draft reviewed word brief for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Sponsor checks numbers and recommendation. Do not invent figures or claim that a simulated action was deployed.
```

NS-07 — Refine executive tone

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing a rough draft for a leadership audience. Use only the attached Northstar Service source pack, particularly NS-07. Ask Copilot in Word to shorten and clarify the recommendation. Draft concise executive summary for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Human owner signs the final message. Do not invent figures or claim that a simulated action was deployed.
```

NS-08 — Create board slides

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing approved word brief and baseline chart. Use only the attached Northstar Service source pack, particularly NS-08. Use Copilot in PowerPoint to create a five-slide decision story. Draft board presentation for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Trace every chart to approved values. Do not invent figures or claim that a simulated action was deployed.
```

NS-09 — Draft Outlook update

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing approved pilot decision and open actions. Use only the attached Northstar Service source pack, particularly NS-09. Use Copilot in Outlook to prepare a status message. Draft unsent status draft for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Sponsor approves recipients and commitments. Do not invent figures or claim that a simulated action was deployed.
```

NS-10 — Use Researcher carefully

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing synthetic policy and market question. Use only the attached Northstar Service source pack, particularly NS-10. Use Researcher if available to gather sources, or compare supplied documents. Draft source and uncertainty list for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Validate dates, claims and relevance. Do not invent figures or claim that a simulated action was deployed.
