Copy-ready executive Copilot prompts

C776 · v1.0 · 1 October 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. Workflows may require Frontier access and features vary by tenant. If a feature is unavailable, use these prompts as an offline design and test framework; label the result simulated.

NS-11 — Explore Excel data

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing synthetic monthly service-volume workbook. Use only the attached Northstar Service source pack, particularly NS-11. Ask Copilot in Excel to surface patterns and outliers. Draft trend summary for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Check chart and denominator against workbook. Do not invent figures or claim that a simulated action was deployed.
```

NS-12 — Build a simple chart

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing synthetic before-and-after service table. Use only the attached Northstar Service source pack, particularly NS-12. Use Copilot in Excel to propose a clear chart. Draft annotated comparison chart for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Use comparable periods and units. Do not invent figures or claim that a simulated action was deployed.
```

NS-13 — Prepare a Teams meeting

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing pilot objective, questions and decision owner. Use only the attached Northstar Service source pack, particularly NS-13. Use Copilot to prepare a concise meeting agenda. Draft decision agenda for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Chair confirms questions and owner. Do not invent figures or claim that a simulated action was deployed.
```

NS-14 — Review meeting recap

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing synthetic teams transcript and dissent note. Use only the attached Northstar Service source pack, particularly NS-14. Use Copilot in Teams to summarize decisions and actions. Draft validated action log for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Chair checks speakers, owners and dates. Do not invent figures or claim that a simulated action was deployed.
```

NS-15 — Follow up after meeting

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing validated action log and unresolved questions. Use only the attached Northstar Service source pack, particularly NS-15. Use Copilot Chat or Outlook to draft an unsent follow-up. Draft reviewed follow-up message for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Owner approves external distribution. Do not invent figures or claim that a simulated action was deployed.
```
