Copy-ready executive Copilot prompts

C776 · v1.0 · 1 October 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. Workflows may require Frontier access and features vary by tenant. If a feature is unavailable, use these prompts as an offline design and test framework; label the result simulated.

NS-36 — Map a work journey

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing chat, workflow and agent opportunities. Use only the attached Northstar Service source pack, particularly NS-36. Show where each Copilot mode helps in one service journey. Draft future-state journey map for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Keep human decisions visible. Do not invent figures or claim that a simulated action was deployed.
```

NS-37 — Choose a first cohort

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing thirty synthetic seats across three teams. Use only the attached Northstar Service source pack, particularly NS-37. Prioritize roles with useful work and manager support. Draft pilot cohort plan for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Sponsor signs selection criteria. Do not invent figures or claim that a simulated action was deployed.
```

NS-38 — Prepare managers

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing role questions and practice needs. Use only the attached Northstar Service source pack, particularly NS-38. Draft a manager briefing with Copilot in Word. Draft manager enablement brief for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Managers can explain limits and outcomes. Do not invent figures or claim that a simulated action was deployed.
```

NS-39 — Collect user feedback

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing synthetic comments from first two weeks. Use only the attached Northstar Service source pack, particularly NS-39. Use Copilot Chat to group friction and successes. Draft improvement backlog for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Assign an owner and due date. Do not invent figures or claim that a simulated action was deployed.
```

NS-40 — Set scale gate

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing adoption, quality and risk observations. Use only the attached Northstar Service source pack, particularly NS-40. Define go, hold and stop conditions. Draft scale decision checklist for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Critical failure blocks scale. Do not invent figures or claim that a simulated action was deployed.
```
