Copy-ready executive Copilot prompts

C776 · v1.0 · 1 October 2026

Use these in an approved Microsoft 365 work account. Attach or paste only the synthetic source pack. Workflows may require Frontier access and features vary by tenant. If a feature is unavailable, use these prompts as an offline design and test framework; label the result simulated.

NS-41 — Measure time honestly

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing baseline, assisted and review minutes. Use only the attached Northstar Service source pack, particularly NS-41. Use Copilot in Excel to explain net minutes saved. Draft net-time table for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Check formulas and comparable work. Do not invent figures or claim that a simulated action was deployed.
```

NS-42 — Measure quality

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing sample drafts and correction log. Use only the attached Northstar Service source pack, particularly NS-42. Use Copilot to summarize error types. Draft quality scorecard for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Critical error is reported separately. Do not invent figures or claim that a simulated action was deployed.
```

NS-43 — Measure adoption

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing seat assignments and actual useful sessions. Use only the attached Northstar Service source pack, particularly NS-43. Compare licence, activity and productive use. Draft adoption chart for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Define productive use per role. Do not invent figures or claim that a simulated action was deployed.
```

NS-44 — Estimate total cost

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing synthetic licensing, training and review costs. Use only the attached Northstar Service source pack, particularly NS-44. Compare costs and benefits with Excel. Draft scenario table for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Label assumptions and sensitivity. Do not invent figures or claim that a simulated action was deployed.
```

NS-45 — Decide investment

```
Help me complete a Microsoft 365 Copilot business task. I am reviewing value, quality and risk records. Use only the attached Northstar Service source pack, particularly NS-45. Draft a fund, hold or stop note in Word. Draft investment decision memo for a leadership audience. Show the source behind every material claim, label assumptions, surface the strongest counterargument, and state what the human decision owner must verify. Apply this decision gate: Sponsor signs conditions. Do not invent figures or claim that a simulated action was deployed.
```
